Clarendon Select Board
Emergency Site Visit
Thursday, July 23, 2020
Minutes

Attendees:

Mike Klopchin, Chair
Cash Ruane, Road Commissioner/ Selectman
Robert Congdon, Selectman
Katie Rock, Board Secretary
Laura Lappiere, Wetlands Program Manager

Laura Lappiere from the Department of Environmental Conservation conducted an emergency site visit at the West Clarendon Cemetery. This visit was mandatory after Laura had received complaints that the Town was filling in a potential wetland. The fill had been placed temporarily in the parking lot area of the cemetery and there were plans for it to be removed. Laura found that there was a Class II Wetland. The Town and the DEC agreed to remove the fill that's within the wetland buffer, top-dress where the previous parking lot was, and ensure that the fill is disposed in a non-wetland area.
