**SITE VISIT NOTES:**

Road Commissioner Ruane has had difficulty plowing Misty Meadows Circle with a tandem dump truck. The town owns only tandems and 1 one-ton. The one-ton has been unavailable to plow/sand the circle since the Road Commissioner's route has not allowed. He is out of material by the time he gets to Misty Meadows Circle, so it has made the most sense for the tandem to plow and sand the circle. Because the tandem is so large it's difficult to maneuver around the circle without cutting it off. Cash's suggestion to the residents who live at Misty Meadows Circle, was to take the grassy circle out to eliminate the issue. Cash also thought it would be ideal for all the mailboxes to be lined up on one side, next to each other, so the plow isn't as likely to hit them. Many of the residents were against taking the circle out because of the current aesthetic that it holds. They also did not agree with Cash about the mailbox idea. The Road Commissioner also wishes to pitch the road so that the water doesn't flow towards the center of the circle. The roadway has become quite banked. There was much debate between the residents and Road Commissioner about the best course of action but ultimately, a compromise was found: the Road Commissioner and residents agreed it would be best to shrink the size of the grassy circle, remove the gravel that has piled up from plowing, and pitch the roadway in such a way so that the water run off isn't affecting the circle.
